

EXPANDING LEARNING SCENARIOS

OPENING OUT THE EDUCATIONAL LANDSCAPE

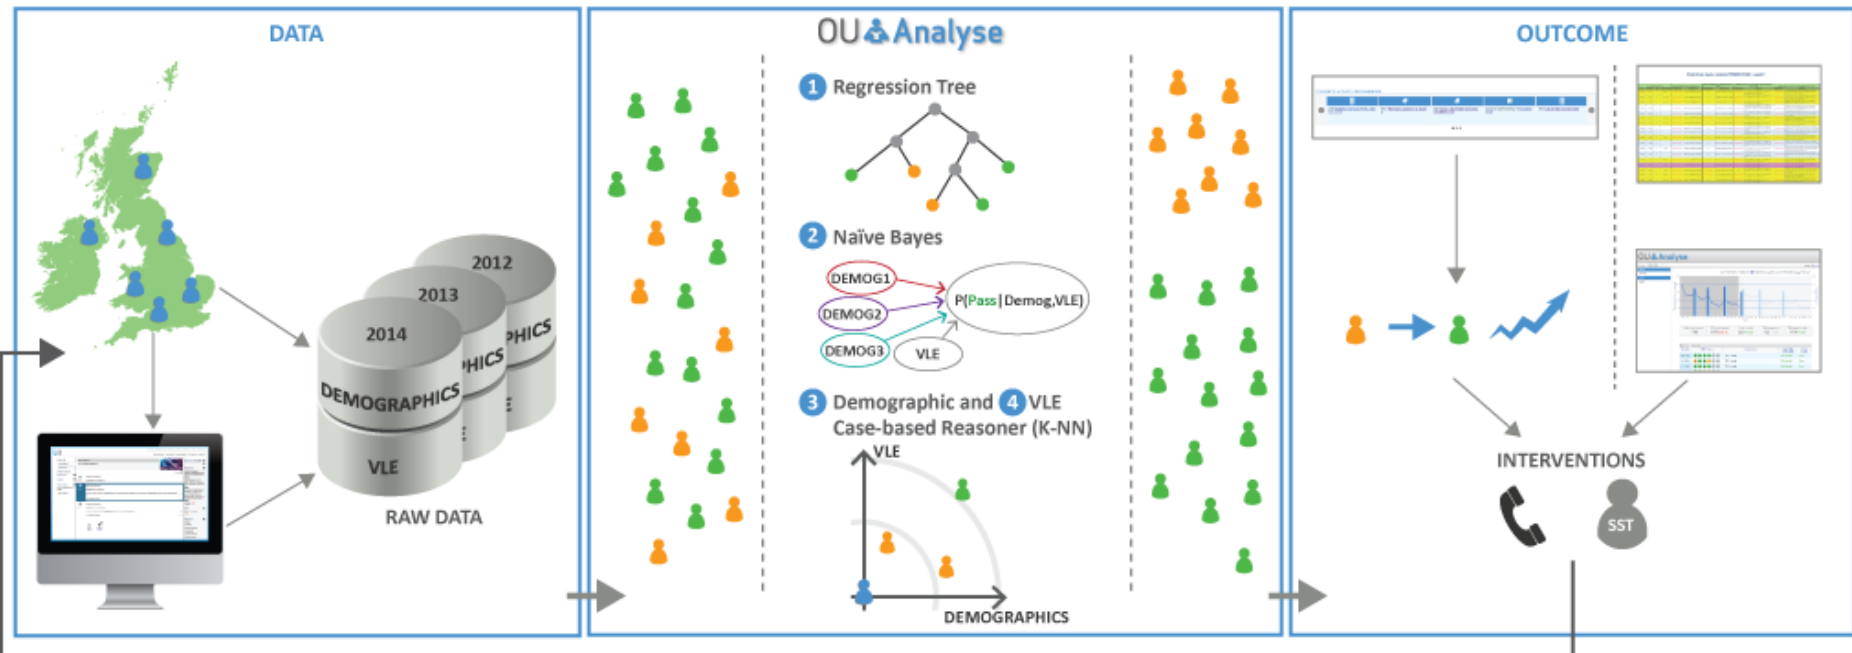

The Open
University

Evaluating weekly predictions at the OU

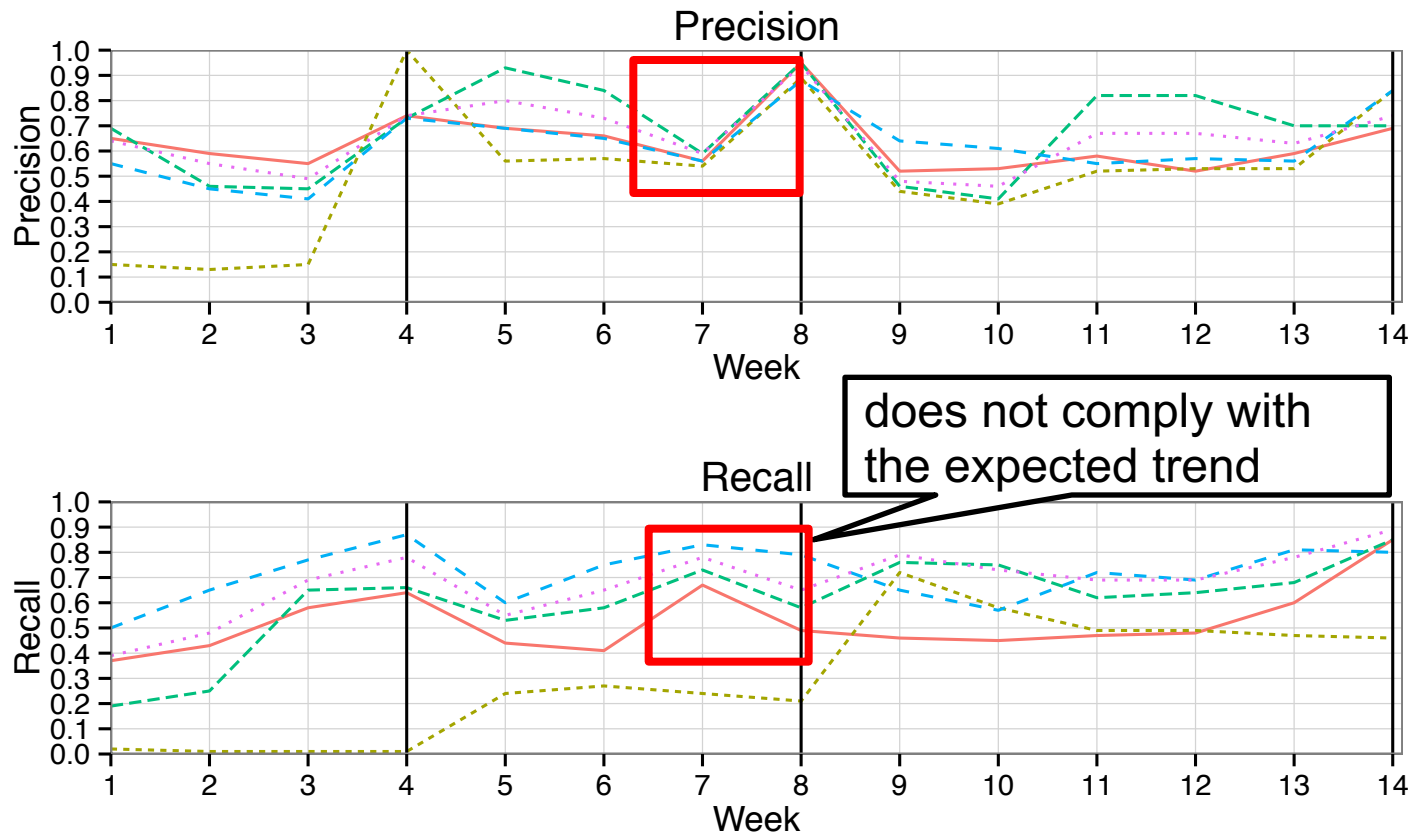

Martin Hlosta & Drahomira Herrmannova
The Open University
10 June 2015, Barcelona

Background and introduction

- The Open University
 - Distance learning
 - Focus on improving retention
- Predicting the result of next milestone (assessment)

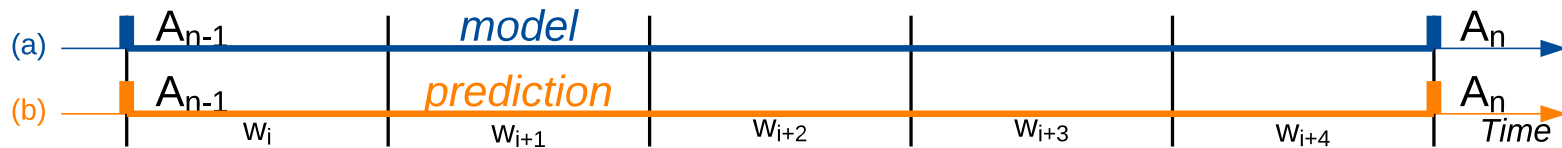

Evaluating the predictions

Towards new mapping strategies

- The problem
 - Alignment of the model and predicted presentations
 - Cut-off dates or number of weeks don't coincide
- Ideal case

- Reality & possible solutions
